***Allowable Subject Matter***

Claims 22-23 are allowed.

The following is an examiner's statement of reasons for allowance:

Independent claims 22-23 when considered as a whole, are allowable over the prior arts of record. Specifically, prior arts of record do not teach or suggest the combination of means, arranged and interacted to perform the step of presentation of digital content on personal communication devices. Specifically, Abecassis teaches determining a current context of said device, wherein said context has at least one dimension; (video map is considered as a current context which has a location dimension, column 33, line 60 through column 34, line 7); automatically determining a relevancy value for each element of said set of content items with respect to said current context (col. 34, lines 64-65, content preferences are considered as relevancy values); automatically generating a probability value for each element of said set of content items from said relevancy values (e.g., col. 35, lines 35-44); probabilistically selecting at least one of said plurality of content items in accordance with each items probability value (e.g., col. 35, lines 45-52); and " presenting said at least one selected content item to said user through said device (e.g., col. 34, lines 7-18). However, none of the references teach or suggest the feature of the mapping being a non-linear mapping defined by the equation:

Unadjusted Probability Value =  $e^{** (A \times (\text{Relevancy Value}) + B)}$

wherein A is a scale value and B is an offset value;

Wherein the adjusted probability value is generated by the relations:

Adjusted Value(k) = Unadjusted Value(k) / Correction(k)

Correction(k) =  $\text{Sum}\{j = 1 \text{ to } n\} (1 / (1 + (\text{Unadjusted Value}(k) - \text{Unadjusted Value}(j)))^4)$

wherein Unadjusted Value(k) is the unadjusted probability for item "k", "n" is the number of said content items, and "j" is an index of iteration of unadjusted values.

With such limitations, the Examiner deems this application in condition for allowance over the prior arts made of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mylinh Tran. The examiner can normally be reached on Mon - Thu from 7:00AM to 3:00PM at 571-272-4141.
